APRIL	20 P	Unit - 1 Numbers and Numeration	* Number system in Indian and International system. * Understanding of Roman Numerals	* Playway Method by using numbers cards. * Use of Romans numeral in our day today life.	*Showing the Place value of 6 - digit no. by folding strips of paper. * Framing of Roman numerals.	* Number cards * Place Value * Chart showing Roman Numerals	Number tricks ActivityWorksheet	* Recognize big numbers and apply them in proper places. * Able to solve problems in real life problems. * Comparison between Hindu Arabic number system with Roman Numerals.
MAY		Unit - 2 Addition	* Properties of Addition * Skill of framing word problems.	* Role Play * Oral questioning * Discussion	* To add 3 four digit number with re-grouping.	* Number cards * Educomp Modules	* Activity * Worksheet	* Able to use concept of addition at appropriate place.
		Unit - 3 Subtraction	* Use of addition and subtra -ction together.	* Real Life situation by framing stories	* Subtraction of no. formed by number cards.	* Number cards * Classroom objects. * Educomp	* Activity * Worksheet	* Able to apply the concept in word problems.
		Periodic - I, Syl	labus : Unit - 1, 3	for word problems.		Modules	* Holiday Homework	
JULY		Unit - 4 Multiplication	* Multiplication is related to addition. * Multiplication facts.	* Importance of multiplication as repeated addition.	Multiplication by breaking numbers. Integrated with Music Song	* Grooved and Plane sticks * Educomp Modules	- Oral questioning - Worksheet	* The students will be able to use their knowledge of tables. * For quick calculations.
		Unit - 9 Money	* Importance of money in day today life.	* Use of artificial notes. * Role Play.	To make bill of items. Integrated with Arts Bill	* Artificial Currency * Bill of goods bought from market.	- Oral questioning	* Importance o f money in day to day life.

MATHEMATICS

Month	Pd.	Lesson	SKILL	Teaching Methodology	Activity / Project/Assignment	Teaching Aid	Assessment	Learning Outcome
AUGUST	12 P	Unit - 5 Division	 To develop understanding of arithmetic operations and techniques. To explore the relationship between operations. 	- Problem Solving Method. - Analyze problem	To build the skill of dividing by multiples of 10	Beans, Marbles class room objects Educomp. Module	- Activity - Worksheet	Students will learn how to draw angles and circles.
	12 P	Unit - 6 Multiples and Factors	- Quick calculations by divisibility tests	- Stress on tables - Playway method - Explanation through examples from daily life.	To find the prime and composite numbers using Sieve's Method	- Peg Board with Pegs - Educomp Module	- Questions based on DMAS - Project work - Workheet	Recognition of Prime and Composite numbers. Students will learn to find HCF and LCM.
SEPTEMB	BER:	TERM 1	Syllabus : Ui	nit - 2, 4, 5, 6, 9	l			
ост.	12 P	Unit - 10 Measurement	- Skill to make inferences and select the right measuring tools To solve problems by using correct units.	- Role Play - Discussion - Oral calculations	To develop the relationship between smaller and bigger units.	- Measuring tape, scale, beam balance beakers	- Worksheet	The students will be able to see the importance and value of metric units of measurement in their daily life.
		Unit- 12 Basic Geometrical Concept	 To integrate measurement into geometry. To apply spatial reasoning while constructing angles. 	- By giving example from the surrounding to show angles, line segment and circles.	- To find relation between radius and diameter by paper folding. Integrated with Yoga Angles	Model showing angles and parts of circle * Geometry Kit	- Worksheet	Students will learn how to draw angles and circles.
				40/4#				

MATHEMATICS

Month	Pd.	Lesson	SKILL	Teaching Methodology	Activity / Project/Assignment	Teaching Aid	Assessment	Learning Outcome
Nov.	12 P	Unit - 11 Measures of Time	- Recognition and importance of time. - To solve real life problem.	- Telling the importance of time.	Familiarity with calendar pattern. Integrated with Music - Song	- Digital and 12 hour clock Educomp Modules	-Brain Teasers - Worksheet	Students will be able to read 12 hours and 24 hours clock.
	7 P	Unit - 13 Perimeter and Area	- To understand geometry as a branch of mathematics.	- By prompting Real life example.	To measure perimeter of irregular shapes.	- Measuring tape - Scale - Grid paper - Geo Board	- Activity - Worksheet	Students will be able to calculate perimeter and area.
		Periodic - II,	Syllabus: Unit 10, 11					
Dec.		Unit - 7 Fractions	- To read, write and identify fractions. - Use in real life.	- Group Discussion	- Arranging the fractions in ascending and descending order.	- Model showing different fractions.	- Brain Teasers	- Understanding of fraction in daily life. - Role Play
		Unit - 8 Decimals	- Understanding of decimals, Addition and Subtraction of decimals.	- Explanation through examples from daily life.	- Representation of decimal numbers. Integrated with Arts -Origami	- Place Value Chart of decimal	- Activity - Worksheet	- Develop thinking ability and observation.
Jan.		Unit - 14 Data Handling	- To interpret the data in pictorial form and graph form.	- By group activity	Representation of data in the form of pictograph.	- Modules on Edu comp	- Questioning - Group Discussion	Students will learn arrangement of data and pictograph.
Feb.		TERM - II	Syllabus - Unit - 7	, 8, 12, 13, 14, 2, 9			1

	10	L - 11 Solar System	Awareness and Reasoning Skill	Explanation through videos and smart class modules.	* To show movements of the earth. * Diagrams <u>Subject Integrated</u> DANCE	* Chart and model of solar system. * Smart class modules.	* Correlate and complete the series. * Diagrams.	Curiosity for universe will be satisfied.
AUGUST	10	L - 13 Soil	Knowledge Critical thinking	Real life Applications	Subject Integrated MUSIC (SONG)	* Smart Class Modules * Samples of different types of soil.	*Diagram * Maintenance of notebooks.	Nature is an integral part of our life. We should conserve it.
SEPT.		TERM - I	Syllabus - 3, 4, 9, 1	1, 13				
ост.	10	L -2 Where plants live ADAPTATION	* Scientific Thinking * Reasoning Skill	Random questioning and group discussion.	* Lab Visit To show specimens of different plants.	* Smart Class Modules * Specimens of different plants.	* MCQ * Role Play	Different types of plants make our world beautiful. Converse them.
	10	L -14 Protecting the Environment	* Awareness * Reasoning skill	Discussion and explanation through real life examples.	* <u>Subject Integrated</u> 1. ART POSTER ON ENVIEONMENT 2. DANCE	* Videos * Smart Class Modules	* Environment Sensitivity * Value Based Questions	Man is responsible for polluting the environment SAVE NATURE TO SAVE LIFE.
NOV.	12	L - 5 Food Our Basic Needs	* Knowledge * Application	Explanation through daily life examples.	* To study important information written on the wrapper of Health drinks / cosmetics Subject Integrated MUSIC (SONG)	* Wrapper of any health drink or syrup.	* Value based questions.	Care and concern for good health.

SCIENCE

Month	Periods	Lesson	SKILL	Teaching Methodology	Activity / Project/Assignment	Teaching Aid	Assessment	Learning Outcome
	10	L - 6 Digestion	* Observation * Critical Thinking	Explanation through videos and smart class modules.	* To show denture and model of Digestive system.	* Denture * Smart Class Module. * Model of Digestive System.	* MCQ * Scientific terms	Healthy mind resides in healthy body.
	PER	IODIC TEST -	2 L - 2, 14			узівіі.		
DEC.	12	L - 8 Solids, Liquids and Gases	* Scientific Aptitude * Thinking Skill	* Demonstration Method	* To show 1. Different states of matter 2. Solubility test of substances. 3. Process of Evaporation and Condensation	* Things used for different activities. * Smart Class Module.	* Diagrams * Scientific terms. * Project Work	Matter is all around us.
	10	L - 10 Weather, Water and Air	* Observation * Reasoning Skill	* Discussion and explanation though flow charts.	* To show the process of Evaporation and Condensation.	* Smart Class Module.	* Group discussion. * Correct the statements * Diagrams.	Sun causes all weather changes on the earth.
JAN.	15	L - 12 Force, Energy and Work	* Logical Reasoning * Understanding	* Demonstration Method	* To show transformation of energy with the help of examples from surroundings. Subject Integrated PHYSICAL EDUCATION (SPORTS ACTIVITIES)	* Sample of simple machines. * Smart Class Modules.	* Give reasons * MCQ * Maintenance of notebooks	Simple machines make our work easy and less time consuming.

TERM - 2 SYLLABUS - L - 5, 6, 8, 10, 12, 7, 4
