## CLASS XII PEDAGOGICAL PLAN - SCIENCE (2024-25)

## SUBJECT: ENGLISH CORE

## CLASS : XII

## SESSION : 2024-2025

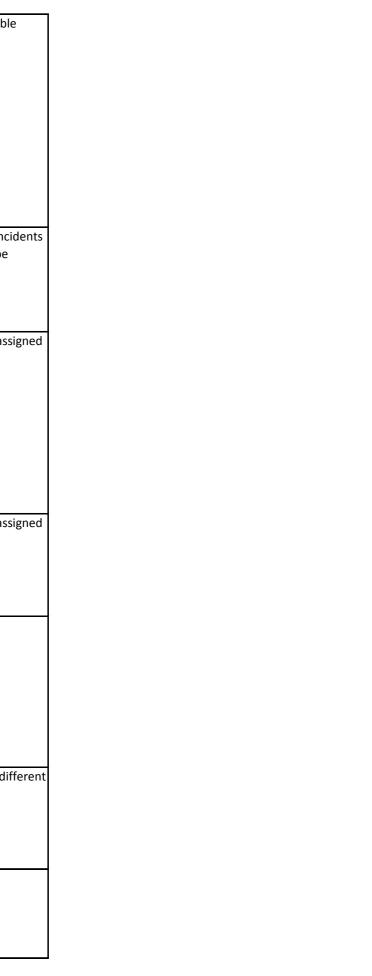

| MONTH & TOPIC   | SOURCES & RESOURCES   | LEARNING OUTCOMES   | LEARNING OBJECTIVES  | SUGGESTED ACTIVITIES   |
|---|---|---|--|--|
| April<br>The Last Lesson<br>(Flamingo)                      |   | towards life amidst many struggles. They  | to make the students identify the genre to which the<br>story belongs.<br>To understand the techniques used by the author.<br>To enhance vocabulary.<br>To enable them to comprehend the cultural background<br>of the story. To enable them to realize the<br>importance of a teacher in the life of a student.   |  |
| My Mother at sixty-six<br>(Flamingo)                        | https://diksha.gov.in/play/conten<br>t/do_312995897524502528121 | and meaning of the poem. They would be able<br>to read the poem with proper tone and rhyme  | To prepare the students for poetic forms and adept   | and My Mother At Sixty- six.<br>The learners would discuss in their groups and dra<br>a comparative analysis and present the synopsis o<br>the discussion in the class. Extracts v |
| The Third Level (Vistas)                                    | https://diksha.gov.in/play/conten<br>t/do_312995896174551040157 | They would be able to differentiate between the<br>level of reality that exists in our mind only and<br>not in actual space and time.<br>They would make virtual travel in time | To enable them to analyze Jack Finney's word choices.<br>Toanalyze the text structure of the chapter   | Video clippings of The Third Level Assignme<br>Based on chapter  |
| Writing Skills<br>Notice Writing &<br>Application For a Job | Online sharing of model writing short and long compositions     | information in any given notice. Students will be   | To enable the students to apply the correct format<br>while writing a notice. To make the<br>students comprehend why a notice is written and the<br>style and procedure  | different fields of notices. and advertisements.   |
| May Lost<br>Spring (Flamingo)                               |   | child labour. They will be facilitated to make  | They would be able to identify the problem, consider<br>the options, weigh the pros and cons of each option,<br>and reach options, weigh the pros and cons of each<br>option, and reach a decision/opinion/solution. They<br>would enhance their analytical skills. They would be<br>able to uncover the motives of the poor parents/<br>policemen/middlemen.                                    | questions of the chapter   |
| DEEP WATER (Flamingo)                                       |   |   | to enable the students to enhance their understanding<br>skills and create an interest in the topic to be studies. To<br>prepare them for crisis management'<br>To inculcate the values of hardwork and determination.<br>To make the students enrich their vocabulary and<br>strengthen their understanding skills. To enable them to<br>strengthen their logical and critical thinking skills. | How to deal with fear?' Value based question   |
| The Tiger King (Vistas)                                     | PPT based on chapter will be<br>shown                           | The learner will be able to understand the behaviour kings in pre-independent India.  | To enable the students about the irresposible behaviour<br>of the powerful people towards wild life and their<br>subordinates.   |  |

|  |   |  |   | L   |
|--|---|--|---|---|
| KEEPING QUIET<br>(Flamingo)            | https://diksha.gov.in/play/conten<br>t/do_313001757172727808131 | The learners would be able to understand the<br>need of the hour to maintain peace and cut out<br>the clamour and bloodshed, correlating it with<br>contemporary background and personal<br>experiences. They would be able to up threat<br>and gentle heeding with the predictable loss of<br>the global domain   | to read and recognize<br>the purpose of economy of words and the hidden<br>feelings and nuances of the<br>lines, correlating them with author's Background-to<br>build up didactics, empathy and sympathy with the<br>Speaker . To inculcate the values of introspection,<br>retrospection, peace, sensitivity to the environment,<br>universal brotherhood, empathy and self awareness | Role Play on establishing Peace and Unity.<br>PPT based on poem. Poem based extra<br>will be assigned   |
| WRITING SKILLS Article<br>Writing      |   | The students would develop an interest towards<br>writing. Their planning and organizing<br>techniques would be enhanced. They would be<br>able to research on any subject and derive<br>information from facts and present him in the<br>form of a written piece. Their creative writing<br>would be analysed.  | To enhance familiarizing with specific backgroundwould<br>be enhanced. They would be able to research on any<br>subject and derive information from the facts and<br>present in the form of writing piece. Their creative<br>writing would be analysed.   | Article Writing deriving ideas from interview<br>Article Writing based on current topics (hints wo<br>be given)<br>Article Writing on facts (based on research) |
| THE RATTRAP<br>(Flamingo)              | https://youtu.be/oKQ5P6cMwGc                                    | The students would be able to effectively<br>provide a synopsis of the story. They will be able<br>to analyze the values and thought process of the<br>story. They would be able to identify the<br>insecurity while tackling personal fears and<br>horrors that lurk in the recesses of our mind.<br>They would be able to appreciate the<br>significance of developing personal fears yet<br>rising above them to savour real liberty. They<br>will be able to analyze the values and thought<br>process of the story. | To guide the students to relate the characteristics of<br>literature to larger cultural and human values.<br>To facilitate making connections between similar<br>situations in different storylines/life experiences.   | Debate on The whole World<br>nothing but a great Rattrap.   |
| WRITING SKILLS<br>Letter to the Editor | https://youtu.be/o0BiobmCOSI                                    | The learners would be able to organise their<br>thoughts and express freely. They would<br>develop an interest towards writing thus<br>enhancing their writing skills  | To express ideas harmoniously and chronologically<br>without difficulty in expressions, grammar usage,<br>format usage,<br>relevant vocabulary. To make the students<br>comprehend why a writing composition is written and<br>the style and procedure.   | Online sharing of model writing short and long compositions   |
| · · ·                                  | PPT based on chapter will be<br>shown                           | The learners would be able to understand about<br>enviornmental issues. How to write a<br>travelogueand life on Antarctica?  |   | GD on topicsGlobal warming,Erractic weather conditions-Reasons and solutions.   |
| June Poem A<br>Thing Of Beauty         | https://diksha.gov.in/play/conten<br>t/do_312995897640525824133 | The learner will acquire the ability to listen and<br>understand,develop the habit of reading for<br>information and pleasure and draw inferences<br>and relate texts to previous knowledge.   | to enable the learners to appreciate poetry to infer the<br>deeper meaning/message<br>- to prepare the students for poetic forms and adept<br>them with the figures of<br>speech, rhyme and rhythm Learn to<br>perceive beauty as a source of inspiration and joy,<br>Also learn to develop a taste for Greek Mythology   | Answer reference to context questions in detail.  |
| A Roadside<br>Stand(Flamingo)          |   | the learner will be able to understand the resposibility of rich towards the poor.   | To enable the learners to appreciate poetry to infer the deeper meaning/message   | Students will be asked to gather ideas to bridge th gap between rich and poor.  |

| AUNT JENNIFER'S                            | Power point presentation on   | The learners will be able to facilitate making  | To enable the learners to appreciate poetry to infer the  | Stuents will be asked to discuss various possible   |
|--|---|---|---|---|
| TIGERS (Flamingo)                          |   | connections between similar situations in<br>different storylines/life experiences. They will be<br>able to empathize with Aunt<br>Jennifer's problems and seek resolution. They<br>will be able to think and produce spontaneous,<br>fluid and expression in poetic texts to convey a<br>social change.<br>They would discern prevailing inequalities in<br>various guises They will be able to empathize<br>with Aunt                     | deeper meaning/message  | steps for the upliftment of women.  |
| JULY Indigo<br>(Flamingo)                  | https://youtu.be/MOo9iJ8RYWM  | They would be able to understand the method<br>and principles of Gandhian activism.<br>They would be able to learn the oppressive<br>policies that led to the involvement of the<br>masses  | To enable the students learn about an unequal battle<br>between the oppressed and the oppressor.<br>They will learn truthfulness, sincerity of purpose and<br>untiring efforts of Indian Leaders.           | Value based question answer Various incide<br>and stories about Gandhian movement will be<br>discussed. |
| THE ENEMY<br>(Flamingo)                    | https://diksha.gov.in/play/conten<br>t/do_312995897553264640122     | The learners will be able to familiarize<br>themselves with specific background of political<br>enmity. They will be able to identify and make<br>connections between similar situations in own<br>life experiences where our prejudices often<br>hinder our human compassion and empathy for<br>a political enemy. They will be able to<br>understand the significance of professional<br>ethics and social obligation in sensitive times. | To make the students realize the essential worth of<br>human life and universal brotherhood<br>To help them think beyond countries and continents<br>and races and wars.                                    | Possible questions based on chapter will be assign  |
| August<br>Poets and<br>Pancakes(Flamingo)  | PPT based on chapter will be<br>shown                               | They will be able to identify and make<br>connections between similar situations in their<br>own country where each of us witness the<br>dereliction of duty of the law keepers and their<br>complacent laxity.   | To enable the students to respect the generation gap<br>To strengthen family bonds enabling them to handle<br>personal choices and happiness  |   |
| The Interview& Going<br>Places(Flamingo)   | PPT based on chapter will be<br>shown                               | The learners will be able to familiarize<br>themselves with specific background of the cat<br>and mouse role of the police and the criminal.<br>They will be able to identify and make<br>connections between similar situations in their<br>own country where each of us witness the<br>dereliction of duty of the law keepers and their<br>complacent laxity.   | To enable the learners to express their ideas cohesively<br>without any difficulty. To enable them to comprehend<br>different written texts for personal/public information,<br>their formats and purpose   | Possible questions based on chapter will be assigned  |
| INVITATION WRITING/<br>REPLIES             | Images and samples of different types of Invitations will be shared | The learners would be able to express their<br>ideas cohesively, completely, fluently and<br>spontaneously with expressions, grammar usage<br>and relevant vocabulary for a hospitable<br>announcement of an event.   | To enable the learners to express their ideas cohesively<br>without any difficulty . to enable them to comprehend<br>different written texts for personal/public information,<br>their formats and purpose  | Framing and preparing invitation cards for differ<br>purposes   |
| September<br>On The Face Of It<br>(Vistas) |   | they would accept the physically challenged<br>people positively in their life and expand their<br>social interaction. They would be able to build<br>up optimism and self confidence.  | To enable the students to view others by removing the<br>glasses of prejudices, hatred and dislike. To adapt<br>reality of life bravely. To build inner strength and look<br>at the brighter sides of life. | Value based question answer   |

|                           |                                 |  |  | •  |
|---------------------------|---------------------------------|--|--|--|
| Memories of               | Sharing of PPT covering all the | The learners would familiarize themselves with | to guide the students to relate the characteristics of | PPT of the poem-about poet,                  |
| Childhood(Vistas)         | concepts talked in the chapter. | specific background information of social      | larger cultural and human values. To sensitize the     | theme of the poem, literary devices          |

|-----------------------------|--|--|---|--|
| MARCH AND APRIL             | UNIT-1<br>CHAPTER-2 SEXUAL<br>REPRODUCTION IN FLOWERING<br>PLANTS<br>CHAPTER-3 HUMAN<br>REPRODUCTION<br>https://www.youtube.com/watch<br>?v=OuxG3geqSIE<br>https://www.youtube.com/watch | These chapters will make the students understand the concept of reproduction in  | Significance of reproduction will be clear to students .<br>They will learn various concepts related to<br>reproduction. They will be able to locate atleast 6 parts<br>of each reproductive system.  | Students will be asked to observe the offsprings o<br>two types of reproduction.<br>To make a temporary slide of pollen germination.<br>Slides of T.S. of ovary and testis will be shown to<br>clear the structure of these organs . |
| ΜΑΥ                         | CHAPTER-4 REPRODUCTIVE<br>HEALTH<br>UNIT-2 CHAPTER-1 PRINCIPLES<br>OF INHERITANCE AND VARIATION<br>chapter-5 MOLECULAR BASIS OF<br>INHERITANCE   | STD's, contraceptive methods and IVF<br>techniques. To explain the<br>arrangement of genes and their interaction.<br>How DNA was discovered, what is structure of<br>DNA all these questions will be answered well<br>after this chapter . Students will also understand | Students will came to know about the importance of<br>reproductively healthy society. They will be having an<br>idea about self hygiene and awareness about UTI's.<br>Understanding of Various concepts of genetics will<br>make them curious about the genes, chromosomes etc.<br>Students will be clear about the concept behind dna<br>FINGERPRINTING. They will understand how DNA make<br>its copies. The molecular basis of inheritance will be<br>clear. | To isolate DNA from the given sample.<br>Students will make a chart of structure of DNA,<br>REPLICATION AND Translation.   |
| JULY                        | CHAPTER-6 EVOLUTION<br>CHAPTER- HUMAN HEALTH AND<br>DISEASES (CONTD.)  | Students will be ale to understand the origin<br>oflife on earth. Basics of human health,<br>immunity wil be explained for understnding the<br>fighting capacity of our body.  | Students will learn various theories of evolution and<br>their significance Causes of different diseases and<br>their preventive measure will be explained.   |  |
| AUGUST                      | UNIT-3<br>CHAPTER-7 HUMAN HEALTH AND<br>DISEASES<br>CHAPTER-9 MICROBES IN<br>HUMAN WELFARE   | about the drug abuse . What is importance of   | How our immunity is linked with our diet, how our B<br>AND T cells fight against pathogens these conceptds will<br>get clear. This chapter will aware the students about<br>health. It will motivate the students to have good health<br>for strong immunity.<br>students will understand the importance of microbes in<br>day to day life. With the help of examples they will learn<br>how various microbes helps in the formation of those                   | be asked to curdle the milk at home with inoculum<br>and to observe the lactobcillus with the help of len  |
| SEPTEMBER                   | UNIT-4<br>CHAPTER-10 PRINCIPLES OF<br>BIOTECHNOLOGY CHAPTER-<br>11 APPLICATIONS OF<br>BIOTECHNOLOGY  | To provide education that leads to<br>comprehensive understanding of the principles<br>of biotechnology To educate and make the<br>students up to date with the current scientific<br>literature, web information etc.   | Students will be able to understand application of<br>biotechnology in therapeutics, diagnosticss,genetically<br>modified crops for agriculture,bioremediation, waste<br>treatment and energy production.   | To make a list of genetically modified plants and animalss.  |
| OCTOBER                     | UNIT-5<br>CHAPTER- ORGANISMS AND<br>POPULATIONS<br>CHAPTER- ECOSYSTEM<br>CHAPTER- BIODIVERSITY AND ITS<br>CONSERVATION   | Students will understand the distribution of biotic and abiotic factors of living things in enviroment.  | students will be able to- define eclogy and related<br>terms. They will be aware about 4 levels of study in<br>ecology.   | Poster making, class disscusion,group work   |

| CLASS : XII |                                  |                            |   |   |

|           | ?v=tWnvt-8wSeA   |  | Analyses given problem and understands the application of derivative in finding maximum and minimum of o function obtained from the given problem.   |  |
| AUGUST    | Integrals  | Mathematics Part II (NCERT)<br>NCERT Exemplar Problems                     | The learner :<br>Understands integration as anti-derivative of a<br>function.<br>Applies the knowledge about derivative to obtain<br>integral of a function by inspection.<br>Acquires knowledge about different methods to<br>find integral of a given function including<br>integration by parts and method of partial fraction<br>Understands the concept of definite integral and<br>applies different properties of definite integral | The learner develops the processes in<br>Integral calculas based on the ideas of<br>differential calculas learnt earlier.  |
|           | Application of Integrals<br>Video Link:<br>https://www.youtube.com/watch<br>?v=p1IGXkHE3MU   |  | to solve questions easily.<br>The learner :<br>Applies the knowledge about conics and straight<br>lines to obtain the area bounded in a given<br>situation.<br>Expresses the area to be obtained in the form of<br>definite integral and solves to obtain the required<br>area.  | The learner applies the concept of<br>Integral calculas to calculate the areas<br>enclosed by curves.  |
| SEPTEMBER | Differential Equations   | Mathematics Part II (NCERT)<br>NCERT Exemplar Problems                     | The learner :<br>Acquires knowledge about differential equation,<br>its degree and order.<br>Understands the difference in general and<br>particular solution of a differential equation<br>and learns procedure of obtaining these using<br>variable separable form, homogeneous form and<br>linear differential equation.<br>Appreciates its application in real life situations.  | The learner develops the concept of<br>differential equations using the ideas<br>of differential and integral calculas.  |
| OCTOBER   | Vectors  | Mathematics Part II (NCERT)<br>NCERT Exemplar Problems<br>NCERT Lab Manual | The learner :<br>Understands the difference in scalar and vector<br>quantities by taking examples of day to day life.<br>Learns types of vectors and other basic concepts<br>related to vectors.<br>Gains knowledge about scalar and vector product<br>of two vectors and its application.   | The learner constructs the idea of<br>vectors and their properties and<br>relates them to earlier learnt concepts<br>in different areas of mathematics.  |
|           | Three Dimensional Geometry<br>Video Links:<br>https://www.youtube.com/watch<br>?v=3GZQ8iiNvDU<br>https://www.youtube.com/watch<br>?v=Q3hcxDoSymc |  | The learner :<br>Correlates the direction cosines and direction<br>ratios of line with unit vector along the line or<br>a parallel vector.<br>Develops understanding of different forms of<br>equation of line (in cartesian and vector form).<br>Understands concept of skew lines and shortest<br>distance between the two lines.  | The learner evolves newer concepts in<br>three dimensional geometry from that<br>learnt earlier, in the light of vector<br>algebra such as direction cosines,<br>equations of lines under different<br>conditions. |

\*To verify that angle in a semi- circle is a right angle, using vector method.

\*To measure the shortest distance between two

skew lines and verify it analytically.

| Linear Programming            | The learner :   | The learner formulates and solves        |
|-------------------------------|---|--|
|                               | Understands the method to find graphical solution     | problems related to maximization/        |
|                               | of a set of linear inequalities.                      | minimization of quantities in daily life |
| Video Link:                   | Analyses given problem, converts it in the form       | situations using system of inequations   |
| https://www.youtube.com/watch | of linear inequalities and finds the required optimum |  |
| ?v=qQFAvPF2OSI                | value.  |  |
| Probability                   | The learner :   | The learner calculates conditional       |
|                               | Acquires knowledge about conditional probability      | probability of an event and uses it to   |
|                               |   |  |
|                               | and independent events.                               | evolve Baye's theorem and                |
|                               | Solves simple problems based on total probability     | multiplication rule of probability.      |
|                               |   |  |
|                               | and Baye's theorem.                                   | Also determines mean of a probability    |
|                               | Understands the concept of random variable and        | distribution using the concept of        |
|                               | tries to obtain the associated probability            | random variable.                         |
|                               | distribution.   |  |

\*To explain the computation of conditional probability of a given event A, when event B

has already occurred, through an example of throwing a pair of dice.
