## Job prospects

- \* Major recruiter --- Archaeological survey of India.
- \* Other companies offering jobs --- Indian council of historical research. governmental and private museums and cultural galleries. national museums. universities and colleges.

# Character building

## Study of humanities is gaining ground

- \* Humanities is one of the most underrated streams of all. It is a common myth, well circulated among the Indian psyche, that the **Arts/Humanities streams** is for students who are “not smart enough” for studying either Science or Commerce. Humanities broadly refers to the study of human society, its theories and beliefs. It deals with understanding how people express themselves through art, religion, literature, architecture, etc. by analytical and hypothetical methods. The field of social science falls under humanities. It is broad and encompasses subjects like history, geography, political science, etc.

- \* The humanities strengthen our ability to play nice in the sandbox with others. Humanities is a wide discipline that can open up endless career options for students who wish to pursue a career in this field. It is inaccurate to say that pursuing the Humanities/Arts stream after Class 10 will not help a student to pursue a career that brings them satisfaction in terms of success and monetary gains.

# Major Myths and Misconceptions Regarding Humanities

**MYTH 1): The major I choose will determine my career options.**

Students usually want to go for MEDICAL AND NON MEDICAL as they find opportunities in these fields more money making.

**MYTH 2): I need to major in Financial Engineering to go to business school / Biomedical Engineering to go to medical school**

**MYTH 3): Taking the professional level course is the only way to learn about different majors and departments**

Taking an introductory course is **one** way to choose a particular major but may not be the **only** way. Take advantage of Open Houses, Departmental events, and presentations in Gateway.

**MYTH 4): I can't choose just one major because there are so many things that interest me**

Students can take electives, pursue independent projects, find internships, and assume volunteer and leadership positions.

# WHAT PARENTS USUALLY THINK OF THE HUMANITIES FIELD?

It can be seen everywhere that most of the Parents consider ARTS as INFERIOR and want their Children to be engaged in the fields of SCIENCES... .. But certainly it is not becoming much true.

Students find difficult to be so much burdened that they suffer from various illness, especially the NERVOUS BREAKDOWN when they find themselves under pressure. BUT they have to take SCIENCE FIELD so as to fulfill their Parents Wishes and Make them Proud.

But it is totally wrong, choosing a field for the best of the opportunities in the CAREER one should not be burdened and under pressure of their pupils and parents.

**THEREFORE, PARENTS DON'T CONSIDER ARTS STREAM AS INFERIOR AND MUST KNOW THE CURRENT SCENARIO OF THE SOCIETY THAT WHETHER THEIR CHILDREN ARE SATISFIED WITH WHAT THEY HAVE CHOSEN FOR THEIR CAREER OR NOT.**

# Why Study the Arts and the Humanities?

On the quality of life or isness side, Many Thinkers stress that the arts take us into imagined worlds created by different minds and enable us to understand how others live. We are what we read, the museums we visit and the performances we see and hear. They are as much us — part of our memories, our isness — as the culture we inherit and the life experiences we have.

That entry into other worlds and minds does give us a larger context for thinking about how to live and how to confront and understand present personal and historic issues, even while also giving us pleasure for its own sake.

# SCOPE OF HUMANITIES

- The humanities prepare you to fulfill your civic and cultural responsibilities.
- The state-of-the-art scientific knowledge and techniques you learn in college have a limited shelf life; mastering the humanities provides tools for extending it.
- Humanities study strengthens your ability to communicate and work with others.
- You will gain knowledge of foreign languages and foreign cultures.
- The walls that exist among disciplines has been lowered and students can move across disciplines more freely.
- Humanities study helps you understand the impact that science, technology, and medicine has had on society and understand the future scientific needs of society.

# HOW OUR SCHOOL IS PROMOTING HUMANITIES

Various Subjects have been given importance in the humanities. Subjects like POLITICAL SCIENCE AND ECONOMICS especially, help to inculcate such values and the conditions prevailing in the present scenario.

Educational tours to the INDIAN PARLIAMENT AND RASHTRAPATI BHAVAN are organised by the School.

Various clubs such as MUN CLUB AND INDIAN PARLIAMENTARIAN have been established by the COORDINATORS.

DEBATES Regarding SOCIO ECONOMIC MATTERS AND PSYCHOLOGY are usually organised by the School.

AND MUCH MORE IS BEING PLANNED AND IMPLEMENTED BY THE SCHOOL AUTHORITY TO MAKE HUMANITIES A FIELD OF SUCCESS.

# SOME OF THE SUCCESS PATHERS FROM HUMANITIES
